

Krome provides contemporary and elegant expressions of your brand in any print application

Our print design services strengthen your brand identity and help set you apart from your competitors

## Print Design Services

Krome Design makes sure that at every stage of the design process the client is kept in the creative loop. In this way work is formed that represents not only the creativity of the designer, but also the core brand values of your organisation.

### Our Print Services Include:

- Brand & Logo Design
- Stationery Design
- Signage & Exhibition Stands
- Brochures - Datasheets & PDF Literature
- Promotional Literature Design
- POS & Packaging
- Commercial Printing Consultation

## Brand & Logo Design

We believe that whatever the size of your business, the branding and corporate identity you present to your clients is essential. After all, in a busy competitive market place any edge you can get against your competitors is crucial.

Krome provide a ground up brand and logo design service as well as helping to update brands which are already established and creating sub product brand logos for large businesses.

## Stationery Design

Your stationery design is often the first application of your logo and brand design. It can help give a strong impression of how seriously to take your business and how professional it is.

We can ensure when you hand over your business card at an initial meeting with a prospective client that it gives very best impression possible and leaves them wanting to find out more about your business.
